When County tractors first went into production in 1948, the first machines to be built were track laying. It wasn't until 1961 that the manufacture of the equal wheeled 4WD units started. Fordson was a brand name of tractors and trucks. It was used on a range of mass-produced general-purpose tractors manufactured by Henry Ford & Son Inc from 1917 to 1920, by Ford Motor Company (U.S.) and Ford Motor Company Ltd (U.K.) from 1920 to 1928, and by Ford Motor Company Ltd (U.K.) from 1929 to 1964. The latter (Ford of Britain) also later built trucks under the Fordson brand.

Neil Boriskey wrote on Monday, January 23, 2012 (PST): I have a 300 utility orchard style tailpipe coming out left rear. Have a loader on it and I lost hydraulic pressure to raise and tilt the loader, steering pump whines really bad when I tried to turn, thinking I need to rebuild the hydraulic pump on the tractor.
