

Download Pexto Shear Manual 24 Inch

Welcome. As John mentioned it is all in how robust the parts of the shear are designed to shear. I know it doesn't seem like it would be a huge difference but looking at tonnage charts show that to go from 20 gauge to 18 gauge metal it takes 25% more tonnage (1.01 vs 1.25 tons per inch) to shear the same length. Used Machinery Inventory Always buying sheet metal equipment from one machine to entire shops. ACME - 15-KVA Fully Refurbished with Warranty Spotwelder, \$2800, ID#AC15KVA ADVANCE - Plasma Cutter Feeder, ONLY NEW AVAILABLE, ID#ADPLFEED ADVICE - We can help you avoid lawsuits., ID#OSHA ADVICE - Always happy to talk about choices.
